## Price Sheet and Order Form for Schools

Make all checks and purchase orders payable to **The Technology Challenge; Attention Donna Custard.**

The Technology Challenge offers special pricing for schools that represents a significant reduction from the pricing offered to other entities. There are two ways to purchase Challenges: by **site subscription** or **individual subscriptions**. There is no minimum purchase for site subscriptions. Call 609-989-8315 for more information.

**Site subscriptions** provide unlimited access to all Challenges on the LearnDoEarn (LDE) website for one full year for all students within the school or district specified. Site subscriptions include the costs for use by teachers and office staff as well. **Individual subscriptions** provide access to all Challenges on the LDE website for subscribed individuals for limited amounts of time.

### Site Subscription Cost Worksheet

Step 1: Is this site subscription for an individual school or for the district? Enter name of school or district in the space to the right.	
Step 2: Enter the number of students in grades 7, 8, 9, 10, 11, and 12 for all schools in district.*	
Step 3: Multiply Step 1 number by \$1.00.	x \$1.00
Step 4: Enter the product of Step 2, which is the total cost of The Technology Challenge.	
Step 5: Optional Training for school/district Technology Challenge liaison. If elected, enter \$150.00. **	
Step 6: Optional phone help desk support - - if elected, enter \$75.00.***	
Step 7: Total cost of implementation	

\* If the district is a K-8 district, the total number of students in grades 7 and 8 is used to calculate costs.

\* If the district is a K-12 district, the total number of students in grades 7 – 12 is used to calculate costs.

\* If the district is a high school, the total number of students in grades 9 – 12 is used to calculate costs.

\*\* A 30-60 minute online interactive training is available and recommended for Technology Challenge leaders. It reviews how to establish groups, view records, set up proctored Challenges and use other key features of the product. This option also provides phone help desk support for the duration of the subscription only.

\*\*\*Assistance is available through e-mail support only unless phone help desk support is purchased.

**On-site training is available at a cost of \$300 plus travel expenses for a half-day session.**

### Individual Subscription Cost Worksheet

**NOTE:** a minimum \$100.00 purchase is necessary for individual subscription orders.

Step 1: Enter the number of individuals who will be taking the Challenge.	
Step 2: Select one of the following options:	
Option A: for a one-month subscription, enter \$1.50 on this line.	
Option B: for a two-month subscription, enter \$2.00 on this line.	
Option C: for a three-month subscription, enter \$2.50 on this line.	
Step 3: Multiply cost of Option A, B or C with the number of individuals taking the Challenge entered in Step 1 <b>OR</b> \$100, whichever is larger, for the total cost of the Technology Challenge.	
Step 4: Optional Training for school/district Technology Challenge liaison. If elected, enter \$150.00. **	
Step 5: Optional phone help desk support - - if elected, enter \$75.00.***	
Step 6: Total cost of implementation
